Lead Question: Perry A. Pugno, MD, American Academy of Family Physicians

We are following the pattern set at the Tenth National Conference and will have no reception. We encourage everyone to enjoy Kauai with their family and friends. The true gem of this conference series is that it has deliberately allowed time for attendees to network. Please make arrangements to lunch, tour, or dine with each other. It is this networking spirit of the Conferences that we wish to encourage.

COASTAL RESEARCH GROUP

The Coastal Research Group, as a non-profit 501(c)(3) tax-exempt corporation dedicated to the improvement of the nation's health care workforce, helps diffuse ideas and information through its national conferences and workshops and its two websites – www.coastalresearch.org and www.studentdoctor.net.

Over twenty years ago, a group of leaders who represented the family and community medicine movements, the National Health Services Corps and other federal, state and local government and private sector initiatives, developed the National Conferences on Primary Health Care Access.

Over the years, many important leaders of these reform initiatives have participated in the National Conferences, creating a rich legacy of information. Archival material is beginning to be diffused on the website www.coastalresearch.org.
